Action Taken:

1. There was a mixed opinion about reducing the class hours. As a minimum of 50-minute classes are required to complete the syllabus, the resolution has been taken not to reduce the class hours. However, the request was made by the students in view of managing time for preparatory classes. The college already launched classes for CAT, MAT, and Railway preparatory classes, and the resolution has been taken to explore the opportunities to start more value-added and preparatory courses.
2. The management will have a meeting with canteen authorities to explore more food options for the students.
3. As few students are out station, and it takes around more than two hours for those students to reach to the campus, the resolution has been taken that the institution cannot make any changes in the timing during summer.
4. The placement committee will explore, and will try to have MOUs with industries for Internship and Placement opportunities for the students.
5. The college directed to the activity groups to conduct more activities for the students.

6. The college will also explore the opportunities to start PG courses.
7. Remedial classes will be taken by the subject teachers for the students who did not fetch at least 50% marks during internal assessments.
8. The librarian of the college will prepare a requisition sheet after consulting all the faculty members.
